## REPORT OF HEALTH OFFICER

I herewith submit my report as health officer for the year ending January 31, 1932.

The several complaints regarding the sink drains and privies have been made, also about the town dump. I have investigated the same and ordered changes and conditions corrected.

To all who avail themselves of the privilege of using the town dump, I would respectfully ask of them to throw rubbish as far back as possible.

The existence of our present sewerage system is a menace to our town and should be changed.

We have been practically free from contagious diseases during the past year and the general health of the community has been excellent. Much credit is due our sincere, estimable and proficient Dr. Mitchell. I have sent up to the State Laboratory the town water each month, with the following report: good except cloudy and some excess of iron. Two lots of milk were also analyzed and two of the eight were below standard.

A complaint was made to the State Board of Health regarding the keeping of hens in filthy houses, which at certain times emits bad odors.

A representative from the State Board and myself visited the premises and ordered the houses cleaned, the yard dug up and new gravel applied.

I wish to thank all citizens of the town who have assisted me in the performance of my duties and respectfully ask for a continuance of the same in the future.

Respectfully submitted,

GEORGE A. GILMORE,  
Health Officer.

In order that the citizens of our town may know what is being done for the children, the following report is respectfully submitted by Mrs. Eunice I. Gosse-  
lin, Rockingham County Maternity and Infancy nurse.

### **EPPING CHILD HEALTH CONFERENCE**

A Child Health Conference and a child guidance clinic were held in Epping on September 24, 1931, under the supervision of the State Board of Health, Division of Maternity, Infancy and Child Hygiene with the Women's Club of Epping cooperating. Dr. A. W. Mitchell and Dr. Higgins were the examining physicians. Mrs. Mary D. Davis, director of the division, conducted the child guidance clinic.

A report of the conference is as follows:

Total number of children examined .....	47
Total number of babies examined .....	9
Total number of pre-school examined .....	38
Total number found with defects .....	36
Total number found without defects .....	11
Total number of defects found .....	58
